

# Seams of Gold Gold rush research

Your task is to work together as a group to create a visual display about the Australian gold rushes.

As a group you need to agree on who will research and report on which part of the jigsaw. You must also agree on the size, style and approach of your display.

Where and when were the Australian gold rushes?	Where did the people who worked on the goldfields come from?	What methods were used to mine gold?
What were living conditions like on the goldfields?	What was the contribution of women on the goldfields?	What were the experiences of the Chinese on the goldfields?
