

The Prime Minister,
The Regal Hotel, William McMahon,
House of Representatives,
Canberra, A.C.T.

Dear Sir, All thinking Australians must be sickened to hear that the Aboriginal Entasy was forcibly removed today from the lawns opposite Parliament House.

Australia is the only country in the world which still refuses to return any substantial amount of land to its Aboriginal people.

Without this land from which comes their reason for living, they are nothing!

Give these people back their land & their dignity, or you Sir & your colleagues must surely hang your heads in shame.

Yours faithfully,
(Mrs) Barbara Ransome,
Housewife.

C.C. Leader of the Opposition
