The Right Hon. R. G. Menzies.

Dear Sir,

As voters in your constituency, we feel we must register our horror, concern, and shame at the appalling plight of the original Australians. "The Aborigines" as depicted on a programme titled "Man-slaughter" on G.T.V. channel 9, one of our local television stations.

The scenes pictured makes the conditions of the Belsen victims seem luxurious to those of our own aborigines.

Sadly something must be done. How can we boast of a free democratic Australia when things like this happen? We should hang our heads in shame. We feel that as taxpaying free Australians we have the right

to demand that the government do  
something about this disgraceful  
inhuman beat on our national  
conscience, at once.

Yours truly,
